EDUCATION

DANALAKSHMI SRINIVASAN INSTITUTE OF TECHNOLOGY

BE ELECTRONICS AND
COMMUNICATION ENGINEERING
May 2019 | Samayapuram,
Tiruchirappalli, TamilNadu

SKILLS

TECHNICAL SKILLS

Proficient with
Languages:

- JavaScript • TypeScript • Python
- HTML 5 • CSS 3

Familiar with:

- C • C++ • Java

Frameworks and Libraries:

- Angular • React Js

TOOLS AND TECHNOLOGIES

Tools:

GIT (Version Control) • VS Code • Firebase
Automation Anywhere 360 (RPA Tool)

Technologies:

Netlify

Database:

- MySQL • MongoDB

SOFT SKILLS

Strong

Communication • Collaboration •

Problem-Solving

Adaptability • Attention to Detail • Time

Management

Self-Motivation • Flexibility • Customer

Focus

LANGUAGES

PROFICIENCY LEVEL

Native proficiency:

- English • Tamil

CERTIFICATIONS

AUTOMATION ANYWHERE 360 CERTIFICATION

Automation Anywhere

- Automation Anywhere 360 Certification

PYTHON CERTIFICATION

Livewire

- Python Language Certification

WORK EXPERIENCE

ANGULAR DEVELOPMENT | FRONTEND DEVELOPER - TRAINEE

Feb 2022 – Sep 2022 | Chennai

Angular Js / Angular

- Developed Angular-based application, integrating CRM, email automation, group meetings, and employee attendance management. Achieved 100% efficiency in CRUD operations, reducing errors by 90% (10% error rate) and loading time by 50%.
- Implemented interfaces, enhancing operational efficiency by 30% across departments for seamless data handling and organization-wide operations.
- Tech stack: Angular (Version 12), HTML, CSS, JavaScript.
- Database: MySQL

React Js

- Developed UI for a website which provides a smarter way to connect professional service providers with customers. Integrated Backend APIs to make the website dynamic.
- Tech stack: React Js

PROJECTS

CRUD360 | FRONTEND DEVELOPER TRAINEE

- Facilitated seamless organizational management through the development of CRUD360, a comprehensive Angular-based application. Features include leave management, office attendance tracking, salary administration, group meetings, project updates, client management, and email automation.
- Empowered multiple entities with simultaneous access as over 2+ organizations can utilize the web application concurrently, enhancing collaborative efficiency and accessibility.
- Crafted a versatile web solution, suitable for diverse operational needs, ensuring 100% accuracy in task execution, achieved 90% reduction in errors and a 50% decrease in loading time and data management without compromising performance.
- Tech stack: **Angular v12**, REST API.
